To inaugurate this year's *Black Roots* Season - held under the auspices of our newly established *SECURE* brand - The Trade Apartmentz are proud to announce the first solo-exhibition of work by travelling magic lantern artist CHRISTIAN SIEVERS.

The exhibition will open with a lecture that Sievers has put together on his recent return from Theaterland.

Sievers brought back with him several dozen of the professional actors that he came across in the field, and convinced them to pose as slide models. For the duration of the opening night only these actors will be on display alongside the other exhibits.
